

### Centre de services scolaire de Montréal, Montreal, QC

The Centre de services scolaire de Montréal (CSSDM) is one of three French language school service centres located in Montreal, Quebec, appointed by the Ministry of Education. The CSSDM operates 129 elementary schools, 37 secondary schools, 13 adult education centres, and 9 vocational training centres and 28 schooling service centres

### Products Used

- N-8000 IP Intercom series equipment
- DA-250FH Multi-Channel Amplifier

### Purpose

The building that hosts the a CSSDM school required improved communication for staff and students. They need an IP intercom system to enhance paging announcements, multi-zone communication management, a better entrance access intercom with intelligible audio. They also were looking for a solution that was easy to use by administrators and met their budget.

## Challenges

During discussion with the school board, they had mentioned many functions they wanted to be implemented in the school. Our challenge was to design a solution with the right equipment that all integrated and improved communication technology functionality and enhance clarity.

## Solution

The N-8000 series includes a variety of door station, and exchanges and special boxes and was the ideal solution. TOA utilized a variety of intercom equipment, including the N-8640SB which is an assembling kit to customized IP door station and provide a handy way to meeting some of the challenges.

## Feedback

The entire system worked really great and delivered on the pre project conditions, the school administration was very happy with the final results.
