

CSS Marguerite Bourgeois Montréal QC

Located in a multi-ethnic environment, the teaching of French is important at the Marguerite-Bourgeois school. In addition to following the regular program, the school emphasizes sports, an excellent way to increase student perseverance and academic success.

Products Used

- A-9060SM2 9000M2 Series Amplifier
- DA-250FH Multichannel Power Amplifier
- F-2352C 2-Way Wide-Dispersion Ceiling Speaker

Purpose

The Center de Services Scolaire de Montreal Marguerite Bourgeois, required a new sound system that delivered a mixing capability to engage music and announcements. The Other key need was the ability to make announcements in various areas within the building.

Challenges

This project was straight forward and the equipment recommended by TOA was accepted and the installation by the integrator was completed quickly. What was challenging was ensuring that the cost was within the budget the CSSDM provided.

Solution

By utilizing TOA's 9000 series matrix mixer and amplifier as the head end the conferencing and multi zone paging was successfully accomplished. F-series wide dispersion speakers replaced the older poor quality speakers' throughout the building. Lastly, TOA's 9000 matrix mixer amplifier was compatible with Key Digital Controller that the CSSDM currently used to operate the sound system.

The audio and communication solution worked well and delivered on the clients objects. The CSSDM were very pleased and hoped to create the same solution in other facilities they operated.
