

## Clyde River Council Chambers, Nunavut

The Municipality of Clyde River Council is the governing body responsible for representing the public and considering the well-being and interests of the residents. The Inuit hamlet is located on the shore of Baffin Island's Patricia Bay, with a population of approximately 1100.

## Products Used

- TS-920 Infrared Conference System
- Central Unit with recording function
- Chairman Unit
- Delegate Unit
- System Software for CPU

## Purpose

The council members were in search of a new wireless conference system to update the previous system. They required wireless so they can keep members separate by a safe distance and also to have the ability to easily change the configuration of the system when needed.

## Challenges

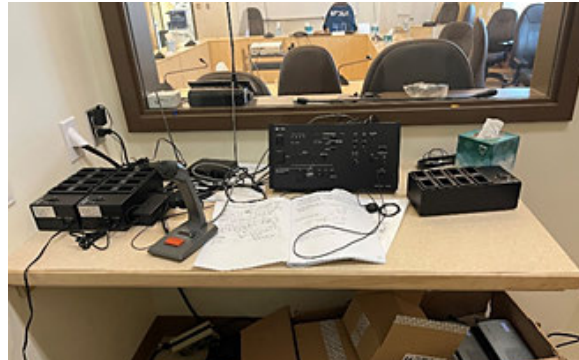

This project had very little challenges.

## Solution

The council had previously been using the TOA TS-900 series that performed admirably. They automatically reach out to TOA to discuss a new system and were ecstatic to know TOA had recently released the TS-920. After view the system units and reading the amazing features, they were sold on the wireless conference system.

## Feedback

The infrared conference system was easily installed and the performance of the system has been excellent. They are very satisfied.
