Purpose

Goderich's Council Chambers was looking for a reliable solution for their frequent meetings.

Challenge

There was no challenge.

Solution

TOA's TS-770 Series Conference System brings multiple-mode remote conferencing to the meeting room, via a standard telephone line, mobile phone or PC-based IP telephony. The system provides a full range of features to ensure clear sound for efficient and effective conferences. Extension cables were re-routed through conduits built into tables to hide the cables and wires of the system.

Feedback

With the proper installation and well-designed system by the TOA tech team, the equipment worked fantastic producing high-quality sound and better clarity. The council was very satisfied.
