

## Justice Center, St Hyacinthe, QC

The mission of the Ministère de la Justice du Québec is to promote the confidence of citizens<sup>1</sup> and respect for individual and collective rights by maintaining in Québec:

## Products Used

- N-XC65-W IP Audio Window Intercom Kit (5)

## Purpose

A large amount of people worked and visited the Justice centre daily and the government required a communication device that would work between plexi glass and still ensure clear intelligible speech.

## Challenges

TOA was competing with other manufacturers, so we needed to ensure that the product worked properly and was easy to install and operate along with providing future support.

## Solution

TOA proposed the N-XC65 IP Audio Window Intercom Kit which was specifically designed for this purpose. Although there were other competitors vying for the project, TOA was able to prove the worthiness and clarity of the Window Intercom to the engineers and the end user. Also, the fact that the kit could be mobile and positioned in other areas was another key factor in winning the project.

## Feedback

The Justice centre was very happy with the performance of the device and the safety aspect it provided. Keeping those in the building safer and reducing anxiety was an added bonus they told us. The sleek and modern design was also a big hit.

## About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing Facilities found in nearly every major market area.
