

Mckellar Community Ctr., Mckellar, ON

The Mckellar community centre provides residents a centralize gathering area and host events and sports activities. With baseball diamonds, indoor gymnasium, swimming area and library its an ideal place to keep people busy.

Products Used

- DA-500F-HLCU Multichannel Power Amplifier
- SR-S4L 2-Way Line Array Speaker
- SR-S4S 2-Way Line Array Speaker
- FB-150W Subwoofer System
- TS-920 Conference System
- S2.4 HHX digital microphone
- DM-1300 wired microphone
- F-1300WT wide dispersion speaker

Purpose

The township was requiring an upgrade to the audio solution in the arena for better sound and paging options. They also were in need of a conference system for the conference room where many community meetings took place.

Challenges

During the design phase of the project, we were advised of the high ceiling that would affect sound dispersion. They also advised TOA they wanted a 5.1 audio output for movie nights. Along with the audio system there was also a conference system and microphones, so, integrating all aspects of audio for this large project was challenging.

Solution

Our technical team designed a system, while carefully understanding the inter complexity of the project choosing SR-S4/H2 line array speakers, the amazing TS-920 infrared conference system, an A-9060 amplifier mixer to head the entire system. Working with the integrator made the installation process very smooth.

Feedback

The Township was there for the first test run and was blown away by the clarity and crispness of the sound. The performance was beyond their expectations.

The logo for the Township of McKellar features the words "Township of" in a light blue, cursive script font, positioned above the word "McKellar" in a large, bold, black serif font. The entire logo is set against a light blue rectangular background.
