

Newmarket Courthouse, Newmarket, ON

The Newmarket Courthouse is a satellite court providing selected and limited court services in conjunction with a main court office.

Products Used

- N-8410MS: Analog Standard Master Station
- N-84000RS: Sub-station Interface Unit
- N-8000DI: Direct Select Unit
- RS-480: Sub-station (emergency use)

Purpose

The courthouse required a door access system for the courthouse security. They needed to be able to control who was admitted into the building and control building access in case of an emergency.

Challenge

The Newmarket Courthouse needed to be able to monitor and control door access and the security of the courthouse.

Solution

Newmarket Courthouse is now home to TOA's N-8000 Intercom System, including analog master stations, substations, emergency use substations and a direct select unit. The courthouse can monitor door access and maintain a secure building via the N-8000 IP Intercom.

Feedback

The courthouse was fitted with an excellent security and access system and ensured people were safe in emergencies. The customer was very satisfied.
