

Our Lady of Mount Carmel, Edmonton, AB

Our Lady of Mount Carmel School serves a large part of the south side of Edmonton. Mount Carmel is a very unique school with many attractive opportunities.

Products Used

- HX-7 Compact Array Speakers and subwoofers

Purpose

Mount Carmel wanted their gymnasium to provide superior sound for assemblies, dances, performances and more.

Challenge

Ensuring that all the cabling that was currently in the gymnasium audio system would easily work with the TOA solution once the old speakers were removed.

Solution

These speakers are perfect for a school gym as they are impact resistant (don't require caging), while offering great sound. The compact array system allowed for the adjustment of speaker direction to allow for perfect set up with the correct sound dispersion.

Feedback

This system was an upgrade of an existing system that had poor sound quality. The school is happy with their TOA design as it provides a sound system with impact within a reasonable budget.

About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area.
