

Premium Outlets Montréal, Chemin Notre Dame, Mirabel, QC

Premium Outlets Montréal is a large village-style outdoor shopping center located along Highway 15 in the Laurentians. The shopping center features covered pedestrian courtyards, restaurants, and countless designer boutiques.

Products Used

- H-3WP EX 2-Way Speakers
- A-906MK2 Amplifiers

Purpose

In order to provide their customers with the best possible shopping experience, Premium Outlets Montréal requires an outdoor audio system that provides even coverage and high-quality audio suited to play background music.

Challenges

Due to the shopping center's large outdoor area, it's crucial that the new audio system is able to widely disperse sound in order to achieve full coverage. Additionally, the equipment needs to be low profile and wall-mounted.

Solution

TOA's H-3 EX WP 2-Way Speakers powered by their A-906MK2 amplifiers was the perfect solution. The H-3 EX WP speakers offer wide coverage and an immense level of clarity able to be heard evenly throughout the entire outdoor shopping area. Not only do the speakers provide more than adequate coverage and quality, the low profile design of the speakers also meet the desired aesthetic while providing a high level of durability able to withstand nature's elements.

Feedback

Premium Outlets Montréal's management could not be more satisfied with the final result. The sound system produces even coverage and excellent overall output as it provides their customers with the ultimate listening experience.
