

## Science World, Vancouver, BC

Science World at TELUS World of Science, Vancouver is a science centre run by a not-for-profit organization in Vancouver, British Columbia, Canada. It is located at the end of False Creek, and features many permanent interactive exhibits and displays, as well as areas with varying topics throughout the year.

## Products Used

- VM-2240: System Management Amplifier
- RM-200M: Remote Microphone
- RM-210: Remote Microphone Extension
- F-2352CU2: Wide Dispersion Ceiling Speakers

## Purpose

Science World in Vancouver, British Columbia renovated their facility to include an expansion. This expansion required an expansion of their TOA equipment. The facility must provide communications throughout the facility, to ensure that all visitors have a pleasant visit, hear any announcements made, and are kept safe by providing emergency and daily communications as required.

## Challenge

Science World had an existing TOA system which they were so happy with, that when the expansion came they continued on with TOA's reliable equipment.

## Solution

Building Management is a hot topic these days. It is becoming increasingly more important to be able to manage a building's communications and security systems, so that you can communicate effectively with patrons. The system must sound great so that every message is clearly understood. TOA's Integrated Voice Evacuation System is ideal for managing a buildings communication. It can effectively reach a variety of audiences providing background music, as well as paging, routed calls, priority and emergency announcements throughout the entire facility. The VM-2000 Integrated Voice Evacuation System was designed just for facilities like Science World. TOA's F Series Ceiling Speakers are designed to provide a wide-dispersion sound pattern so that less speakers are required, yet everyone can clearly hear the sound.

## Feedback

TOA mass notification solution for voice evacuation and intelligible sound was exactly what Science world needed to ensure the safety of their staff and visitors.

## About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area. These facilities have a reputation for precision design and fabrication, resulting in a proven track record of TOA product reliability.
