- HX-5W Compact Line Array Speaker
- SR-T5 Line Array Speaker
- 5000 Series Wireless Microphone System

Purpose

During the school design process it was important to have a powerful and intelligible sound system in their gymnasium. As a location where many school events occurred the school board ask the engineers to get a cost effective but quality system.

Challenges

Being a new build the only challenge was having the TOA team work with the engineers to ensure we deliver the system the required for the audio system.

Solution

TOA equipment was selected and specified for this project because is offered the best value. TOA was able to demonstrate that similar set ups were used in other school boards across Canada with great results. The end result also allowed for easy to use equipment and clear voice and speech levels.

Feedback

The School board was very satisfied with the performance of the speakers and overall functionality of the sound system. Students will be able to enjoy the gymnasium for decades to come.
