

Fellowship Baptist Church, Edmonton, Alberta

A Baptist church located in Edmonton, Alberta.

Products Used

- HX-7B Compact Line Array Speaker System
- DA-500F-HL: Multichannel Power Amplifier DP-SP3:
- Digital Speaker Processor
- HS-1200BT: Coaxial Array Speaker System

Purpose

The church's audio system required a complete overhaul, because the old system was not performing well.

Challenge

The ceiling height and overall size of the church caused a lot of audio issues such as reverberation and feedback. This issue needed to be resolved in order to create intelligible audio that enhances the visitor's experience.

Solution

TOA created a system using the HX-7 speakers for excellent sound quality and subwoofers to eliminate the feedback. The overall combination of TOA products worked extremely well together to deliver intelligible sound.

Feedback

The client was very happy with the look and performance of the newly installed TOA sound system. The system produces intelligible audio that's consistent throughout the entire space.
