## Products Used

- DA-250F: Multichannel Power Amplifier
- ZM-9014: Remote Control Panel
- FB-120B: Subwoofer System
- M-9000M2: 9000M2 Series Pre-Amplifier
- F-2000BT: Wide-dispersion Speaker System

## Purpose

The chain was seeking a reliable sound system capable of producing high-quality audio to enhance their customers' experience.

## Challenge

The building's high ceilings made finding a solution to minimize reverberation crucial. Also, the location had three different zones, which made it necessary to ensure that the audio quality is consistent throughout all of them.

## Solution

Working closely with the consultant and the TOA tech team, the most effective system was designed using the right TOA products.

## Feedback

The client was very happy with the easy to use interface and exceptional sound quality produced by the newly installed sound system.
