Products Used

- A-9000M2 Series Amplifier
- SR-S4L 2-Way Line Array Speaker
- SR-S4S 2-Way Line Array Speaker
- WT-4820 UHF Wireless Tuner & Mics
- DA-250F Multichannel Power Amplifier

Purpose

While reviewing their gymnasium's current sound equipment, Timberlea Public School decided it was in need of an upgrade. Being an important place for student gatherings and other daily activities, it was of upmost importance to increase the level of audio clarity.

Challenges

As with most gymnasiums, high amounts of reverberation is a major issue that requires overcoming. Additionally, the school's gymnasium has two large Peavey Speakers installed that need to be replaced.

Solution

TOA Canada had mastered many gymnasiums in the past. Immediately, TOA designed an audio system that fully matched the space's potential. By utilizing TOA's SR-S4S and SR-S4L speakers, high-quality audio is able to be pumped throughout the gymnasium in a manner that greatly reduces the amount of reverberation while being powered by TOA's DA-250F amps.

Feedback

The teachers and students of Timberlea Public School are very happy with the sound quality of their newly upgraded TOA audio system. They now enjoy a more immersive auditory experience at all events.
