

Weyburn Field House - Weyburn, SK

The Credit Union Spark Centre is completely accessible with barrier-free access points to the building and interior features including the art gallery, pottery studio, multi-purpose rooms, indoor track, simulator room, mini gym, multi-use synthetic field, children's play space and outdoor ice surface. The Centre is located in Jubilee Park.

Products Used

- HX-7B Compact Line Array Speaker
- DP-SP3 Digital Speaker Processor
- DA-550F Multichannel Power Amplifier

Purpose

The community of Weyburn wanted to add a field house to go alongside the Spark centre. The field house would be used for sports such as soccer, field hockey and other turf activities. The building required a strong and intelligible sound system so to ensure music and announcement were heard and keep visitors safe.

Challenge

There were no major challenges except keeping the design and equipment under budget. The installation and integration of the system.

Solution

The installation and integration of the system went very smoothly. To accomplish their requirements, TOA recommended using the pro audio speakers HX-7 directive array speakers with their high performance and ability to be adjusted to guide audio where it needs to go. The audio sound was enhanced digitally with the DP-SP3 process and the entire system was powered by the multichannel DA amplifiers.

Feedback

After installation and operating the sound system a few times the community leaders were very happy, with the performance and sound quality.

About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area.
