

Better Communications = Better Learning!

TOA Canada Corporation understands the value of a great education. Many Canadian educational facilities rely on TOA products including Universities, Colleges, Elementary and Secondary schools. TOA products can be found in classrooms (voice-lift), lecture halls, gymnasiums, cafeterias, building security, and more. TOA strives to promote learning and increase classroom teaching efficiency through products designed to ensure optimum communication between the teacher and student. School Security can be realized with TOA's products to provide campus-wide security and monitoring, communications, broadcasting, emergency mass notification and evacuation, and more.

Learn more about TOA's extensive product line and how TOA products can improve your educational facility by visiting www.TOAcanda.com/works/education.html.
